Abstract	12
1.1. Introduction and background to the general topic area	14
CHAPTER TWO: THE EUROPEAN CENTRAL BANK QUANTITATIVE POLICY AND ITS CONSISTENCY WITH THE DEMAND FOR LIQUIDITY	22
2.1. Introduction	22
2.2. Literature review.....	23
2.3. Use and timing of non-standard measures.....	27
2.4. The measures in favour of piigs sovereign debt and against fragmentation of the banking system	35
2.5. The model of the demand side of ECB operations: equations and theoretical assumptions	36
2.6. The interbank market risk and interbank interest rates.....	39
2.7. The banking system demand for liquidity	45
2.8. The relevance of ECB liquidity interventions: some simulations	49
2.9. Conclusions	53
CHAPTER THREE: STRATEGIES AND PRACTICES FOR THE MANAGEMENT OF BANK'S LIQUIDITY RISK LITERATURE REVIEW	55
3.1. Introduction	55
3.2. Background on the new liquidity regulation	56
3.2.1. Basel III: International framework for liquidity risk.....	56
3.2.2. European Union Regulation (CRR) and Directive (CRD IV).....	57
3.2.3. European Commission Delegated Act	58
3.3. Liquidity risk management framework	61
3.4. Intraday liquidity risk management.....	63
3.5. Medium - and long -term liquidity risks.....	65
3.6. Challenges to liquidity risk management	66
3.7. Construction of LCR items and calibration trough optimization problems	68
3.8. Impact of managers' decisions for liquidity measurement-sensitivity analysis.....	74
3.9. Conclusion	81
CHAPTER FOUR: LIQUIDITY RISK UNDER NEW GLOBAL REGULATORY FRAMEWORK BASEL – III	83

4.1. Introduction	83
4.2. Literature review.....	84
4.3. Liquidity risk in the recent financial crisis	87
4.4. Liquidity spirals.....	88
4.5. Basel liquidity regulation.....	91
4.6. Empirical analysis.....	93
4.6.1. Methodology	93
4.6.2. Construction of the dependent variable: NSFR.....	93
4.6.3. Econometric estimation.....	94
4.6.4. Data overview and economic implications	98
4.6.4.1. Dependent variables – Net Stable Funding Ratio (NSFR)	98
4.6.4.2. Independent variables	101
4.6.5. Empirical results.....	124
4.7. Conclusion	130
CHAPTER FIVE: CONCLUSIONS	132
5.1. Conclusions and implications for policy and further research	132
References.....	135
Appendix 1. Visual Basic Outflows program code:	143
Appendix 2. Visual Basic Inflows program code:	144
Appendix 3. Summary of liability categories and associated ASF factors.....	145
Appendix 4 . Summary of asset categories and associated RSF factors.....	146
Appendix 5. Summary of off-balance sheet categories and associated RSF factors	148
Appendix 6. Euro-zone countries. Empirical results	149
Appendix 7. Covariance of Parameter Estimates	151
Appendix 8. Correlations of Parameter Estimates.....	154

Dedication

... To my second mother and mother-in-law, Giuseppina Pedretti, who never ceased to have confidence in me up to the very last, who despite the cruelty of her disease was a very strong and intelligent woman.

Посвящается

.... моей второй маме и свекрови Джузеппине Педретти,
которая никогда не переставала верить в меня и,
несмотря на жестокость болезни, до своих последних
мгновений оставалась умнейшей и сильной женщиной.

Dedication

... alla mia seconda mamma e suocera, Pedretti Giuseppina,
che non smetteva mai di avere tanta fiducia in me
e fino agli ultimi istanti, nonostante la crudeltà della malattia
è stata una donna molto forte, lucida ed intelligente.
